

Red Hill Football Netball Club Wellbeing Program 2020

MISSION

To make wellbeing support and education available primarily to all players and coaches but also to others involved with our Club.

FACTS

- One in five Australians aged 16 to 85 will experience a mental health condition in any given year.
- One million Australians live with depression and two million live with anxiety.
- Over 50% of affected people do not access any help.
- Suicide is the leading cause of death for Australians aged between 15 and 44.
- Lack of education and employment opportunities, drug and alcohol dependency, gambling, financial pressures, personal relationships and health and, nutritional issues often lead to anxiety and depression especially in young people and may exacerbate mental health concerns.

FOUR FOUNDATIONS

1. Support
2. Education
3. Club Commitment
4. Players

FOUNDATION 1: SUPPORT

A trusted Wellbeing Officer has been appointed to oversee the program. The Wellbeing Officer will be assisted by two Wellbeing Ambassadors from each of the men's teams, women's team and netball teams (see Appendix A) and will also be assisted by the players leadership groups where appropriate.

The team's Wellbeing Ambassadors will undertake appropriate training to assist them in performing their roles.

The team's Wellbeing Ambassadors will refer those seeking help to a suitably qualified person or organisation that will be able to give advice and/or counseling. The Wellbeing Officer and Wellbeing Ambassadors will not provide counselling. Areas being supported may include employment and education, drugs and alcohol, anxiety and depression, gambling, financial matters, personal relationships, health & nutrition, etc.

The role of the program is to assist by providing a supportive and confidential environment to discuss or seek information to support those requiring help. Key principles are:

1. To be confidential (unless the issue could cause harm to self or others)
2. To be non judgemental
3. Offer support and listening
4. Referral to qualified health personnel

The Wellbeing Officer, Wellbeing Ambassadors and Coaches will adhere to the State Government and RHFNC Child Safe Policy. Working with Children Checks will be required. This demonstrates our commitment to the safety, wellbeing and best interests of children and young people and to creating a child safe environment.

It is acknowledged that the Wellbeing Officer and Wellbeing ambassadors are not experts or qualified welfare officers. The Club will engage with mental health and wellbeing services who are suitably accredited. Appendix B contains a list of accredited services. The Club will endeavor to involve these accredited personnel at the Club throughout the year to

improve familiarity and trust within the playing group.

FOUNDATION 2: EDUCATION

The Club aims to educate and raise awareness in many areas, including: depression and anxiety, drugs and alcohol, LGBTIQ acceptance, racism, gambling, gender equality, Child Safety issues.

The following mediums will be used to educate:

- Online through Club social media page
- Face to Face Keynote Speakers
- Peer to peer support programs

Limited educational sessions each year are recommended to avoid fatigue and for maximum impact. Sessions will be delivered by suitably qualified people.

Education will raise awareness to recognize early signs, understand the support available and activate early intervention.

FOUNDATION 3: CLUB COMMITMENT

RHFNC, President and Committee have committed to provide support for the program.

The Committee will agree to a suitable budget to support the Wellbeing Program by way of educational initiatives, keynote speakers, and initiatives and funding for emergency situations.

The “Coach’s Club” and other key supporters will contribute resources towards educational and employment opportunities and mentoring - including for those areas listed in Appendix C.

RHFNC Coaches will play an important role in the support function of players. A traffic light program will be implemented by the Wellbeing Officer. A green, orange or red system will inform coaches of player sensitivities and protect confidentiality.

FOUNDATION 4: PLAYERS

A player code of conduct will be developed by the players with the assistance of the Wellbeing Officer. This code of conduct will identify core club values which will be reinforced by the leadership groups.
